Porsche 911 3.2 Carrera Circuit wagen

Price on request

This 911 was built by us for racing! This car participated in several trackdays and gentleman's races. The car is based on a 1986 3.2 but is heavily modified to achieve nothing but the best results! The aim was to create a car that could easily go for hours on track with the necessary safety equipment like a roll cage, fire extinguisher and bucket seats.

A lovely chassis combined with a great flat 6 and racy exhaust results in the ultimate **street legal** trackday Porsche.

Modifications :

- RS-look body
- Recaro seats
- Momo Prototipo steering wheel
- Bolted roll cage
- Carbon door panels (interior)

- TB& C brake divider
- Plastic windows
- Yokohama Advan A048 Semi Slicks
- Quick release hood and trunk
- OMP fire extinguisher
- Belgian oldtimer plates
