This Guards Red 964 was delivered in Germany January 1990 to the first owner by the Grossklos Porsche Dealer in Saarbrücken. The first owner – who intended to use the car regularly – ordered this 911 in L80K or Guards Red and checked the following options when ordering the Porsche:

- 139 + 340 : seat heating L + R
- 328 : Blaupunkt Bremen SQR 46
- 425 : Rear wiper
- 573 : Air conditioner

- 650 : Sun Moon roof
- 659 : Board Computer

The car stayed in the same family until 2021 when Mr Ritz bought the car through his local dealer. Maintenance records (stamped booklet) as well as technical TUV inspection are available and are stamped by the Porsche dealer. In 2021 this car found its way to the new owner in Luxemburg where it came into the hands of the last loving owner from whom we were able to get the car. A beautiful example and in great condition.

Both the interior and the exterior are in exceptionally neat condition. The maintenance was carried out by Porsche specialists at the Porsche Zentrum Saarland. Everything can be found in the very complete maintenance history with stamped booklets, TUV inspections, a warranty certificate and more. Checking the mileage we can clearly see that the family stopped using the car before it was bought by a local Porsche Classic specialist. The previous owner bought the car from them and had the engine fully checked, major service done and drove the car as intended!

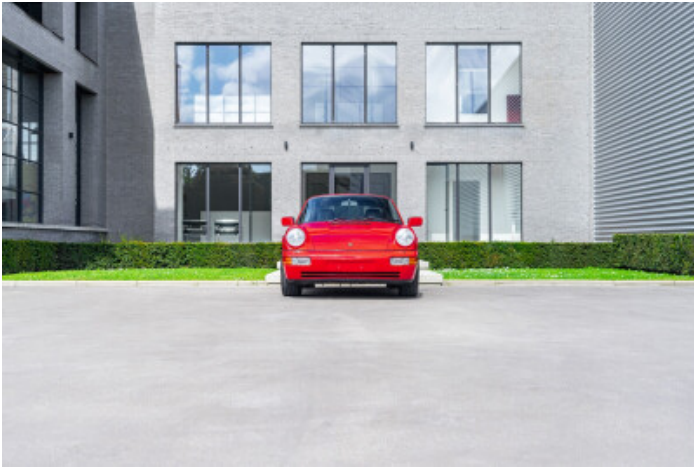

This car checks a lot of boxes. It is in beautiful condition and comes with full service history and original titles (Fahrzeugbrief) from 1992, 2012 and 2022. Furthermore we can see all original booklets and manuals, the original radio with manual, original and unused spare tire, compressor & toolkit! Even the contact card of the Porsche agent who sold the car is still with the car! In all, a unique 964, exactly how you want and ready to be enjoyed by its next enthusiast.
