

1968

Porsche 912 SWB

Price on request

- COA available
- Matching colors
- 5-speed
- Sunroof
- Unique 1968 !

This 912 was delivered new in California wearing Bahama Yellow paint over black leatherette. To fully enjoy the sunny weather, the was equiped with a factory sunroof!

The car had 2 different owners during its life in the USA before the third owner went through a small restoration. When repainting the car it proved that the Californian climate is the best to keep your car rust free, there was absolutely none to be found!

After this the car moved to a Belgian owner who resides in France. The bodywork is still very hard and straight with nice fitting panels. The engine and gearbox are none matching but still in great condition. The 4-cylinder is known for its torque which matches perfectly with a 5-speed gearbox and makes highway a joy as well.

The paint has a nice deep shine and luster, the interior is well maintained and still original! You can enjoy the sun and the sound all year round thanks to the rare sunroof. It's a beautiful 912 to enjoy and the drive without any worries, AND at a fraction of the cost of a 911 or 356!

The 912 was a real succes when launched and to this date it has its fare share of fans, partially due to being a better balanced car. With 911 prices rising people start to re-discover the 912. This a well maintained example with factory sunroof and an amazing color, **the perfect car to enjoy a short wheel based Porsche !**
